

Polypropylene Lids & Universal Dome

LIDS

LP Cylinder takes pride in the manufacture of our propane cylinder lids. Our unique 'fits all' hinge design easily attaches to propane cylinders that require a hinge. If Cylinders do not have a hinge, our lids will adapt to the original manufacture's hinge. Choose from a variety of in-stock colors and sizes, all ready to ship to your location.

AVAILABLE IN 6 SIZES
(14.25", 14.50", 15", 15 3/4", 16", 16.25")
AND 7 COLORS

Features and Benefits:

- Anti-static design provides added safety against electric spark in the presence of propane energy
- U/V resistant material protects against fading of the tank lid
- Wind resistant "Snap On, Stay On" design helps to ensure the lid stays securely in place
- Performance tested in extreme temperatures to -20°F

'FITS ALL' HINGE

DOMES

LP Cylinder's universal dome fits 120 gallon to 1000 gallon ASME tanks. No measuring, and no need to stock several sizes. One Size is Your One Solution!

Features and Benefits:

- Anti-static design provides added safety against electric spark in the presence of propane energy
- U/V resistant material protects against fading of the tank dome
- Performance tested in extreme temperatures to -20°F
- One Size – Fits 120 - 1000 Gallon Tanks
